2021 Average Price Program

January 11, 2021

Dear Patron,

Hudson Grain Company is running an average pricing program again this year for both corn and soybeans. Pricing will be on every Tuesday at 10:00 am beginning **February 2, 2021 thru July 27, 2021**. The bushels that are enrolled in the program will be divided into 26 equal sales, and then the prices will be averaged and put onto one contract for the number of bushels that you choose to enroll. These contracts will be sent out in the beginning of August for you to sign and return to the elevator. This program is just what the name implies – an average price of the dates stated above. Programs of this nature are to get some of the new crop bushels priced, with extra bushels being priced on market “spikes” by you, thus raising the price average that you have on presold bushels.

If you would like to enroll bushels into this program, or have any questions about this program, **please contact us before January 29, 2021 at 309-726-1671**. We will need to know the number of bushels of each commodity that you would like to enroll and if you want payment in 2021 or January 2022.

Sincerely,
Andrew M Craig
